Light Space Style

There are many ways our products can enhance the relationship between the exterior and interior of your home.

We can give you our expert advice to ensure the correct product is chosen to maximise the bespoke design you are hoping to achieve.

We can help you create exciting wide-open spaces with our beautifully made, exquisitely finished and cleverly designed folding doors.

Our doors are made by trained craftsmen, using only the finest materials and state of the art production methods.

1st Folding Sliding Doors, is a national company based in West London. We have factories in Hampshire, and work closely with manufacturers in Germany and High Wycombe. We manufacture and supply a range of Bi-Folding and sliding doors, windows, roof lights and specialised shaped glazing.

We offer a full range of glass specifications. Our newest products due to be released soon are The Frameless Glass Balustrade and The Pyramid Roof Light. As a company, we are consistently product developing and looking into ways of making these products more thermally efficient. Our in-house Fitting Teams are expertly trained in installing our specialised products.
